Informational website

: Why Luxury Brands Invest in BLACKPINK

2024312091 Younseo Lee

Table of Contents

1. Motivation for Topic Selection

2. Website Development Process

3. Explanation of the Final Website Features

4. What you learned

1. Motivation for Topic Selection

- The 2026 Met Gala generated enormous global media attention, proving its influence as both a fashion and digital marketing event
- Luxury brands increasingly invest in BLACKPINK because of their strong global fandom and high digital engagement
- BLACKPINK members generate significant social media impact, media exposure, and brand visibility during major fashion events

⇒ This project aims to analyze how BLACKPINK contributes to luxury brand value beyond traditional celebrity endorsement

- The topic was selected to visualize the relationship between fashion, digital marketing, fandom culture, and data analytics through Met Gala case studies

⇒ A **data-driven informational website** was created to **help fashion MDs and brand professionals** easily compare and analyze these cases

1. Motivation to select a topic - Check website needs

- In the recent luxury fashion industry, strategies focused on expanding brand value through global fandoms and digital influence have become increasingly important beyond simple product promotion.

... BLACKPINK has become a key marketing asset for luxury brands due to their strong global fandom and powerful social media influence.

Member	Brand	Impact
Jennie	Chanel	\$8.6M MIV (media impact value)
Jisoo	Dior	\$11.8M = 26% of total EMV
Rosé	Saint Laurent	\$550M EMV (Employee Value Value)
Lisa	Louis Vuitton	25 S/S Collection Outfit alone \$2.66M MIV

... Met Gala is a global and powerful digital marketing platform where fashion, pop culture, and digital media influence converge

→ generating **\$1.49 billion in EMV**
and over **2.2 billion engagements** in 2026.

⇒ Therefore, **fashion industry professionals and practical fashion MDs need to understand the relationship between BLACKPINK and the Met Gala** in order to quickly derive strategic insights and identify marketing opportunities.

2. Website Development Process – Data Collection

1) Web-scraping

~~1st: instagram hashtag Scraper~~

but the variation in influence of randomly collected posts was too large and it failed

(ex index is just a post I didn't get interested in, Lisa is an official post, etc.)

Check influence by importing only Metgala-related posts from members' accounts

→ 2nd : Utilize the **instagram scraper**

2) Google Trends sites

: **Track search trend data for one month, covering two weeks before and after met (2026.04.20–2026.05.18), and download the results as CSV files**

→ Since each BLACKPINK member attended while representing different luxury brands, the increase in search volume can help explain why brands actively invest in them

+) Although Lisa attended met not as a direct representative of Louis Vuitton but as a Host Committee member, if the brand's search volume increased around the Met Gala period, it could still serve as partial evidence of Lisa's influence on brand visibility and public interest

2. Website Development Process – Data Collection

3) Manual Data Collection

- : Conduct direct data collection to identify whether each BLACKPINK member demonstrates measurable influence on luxury brand Instagram engagement
- Collect Met Gala-related posts from official luxury brand Instagram accounts
- manually create CSV files containing brand names, featured celebrities, number of likes, and post URLs

brand	post_type	featured_celebs	likes_count	post_url
Chanel	BP Featured	Jennie, Margot Robbie, Gracie Abrams, Lily-Rose Depp	845000	https://www.instagram.com/p/DX9B3EMDusN/
Chanel	Other Celebs	Lily-Rose Depp, A\$AP Rocky, Gracie Abrams, Ayo Edebiri, Bhavitha Mandava, Awar Odhlang	76,000	https://www.instagram.com/p/DX9rauRjkcN/
Chanel	BP Featured	Bhavitha Mandava, Gracie Abrams, Awar Odhlang, Lily-Rose Depp, Jennie, Ayo Edebiri	335,000	https://www.instagram.com/p/DX99c2oDv8B/?u
Dior	BP Featured	Jisoo	1490000	https://www.instagram.com/p/DX8UNQfilsD/
Dior	Other Celebs	Paul Anthony Kelly	114000	https://www.instagram.com/p/DX85sSpilfa/

Saint Laurent	BP Featured (Cover)	Rosé, Doja Cat, Loli Bahia, Connor Storrer, Charlotte Gainsbourg, Kate Moss	86000	https://www.instagram.com/p/DYAXV3CmqBs/
Saint Laurent	BP Featured	Connor Storrer, Anja Rubik, Kate Moss, Rauw Alejandro, Rosé, Charlotte Gainsbourg	47000	https://www.instagram.com/p/DYAd_AnnTLw/
Saint Laurent	Other Celebs	Charli xcx, Rauw Alejandro, Anthony Vaccarello, Charlotte Gainsbourg, Anja Rubik, Loli Bahia	22000	https://www.instagram.com/p/DYAk20Sk93I/

- : Gather EMV ranking data related to the Met Gala in order to more clearly demonstrate the marketing benefits and media exposure gained by each luxury brand

2. Website Development Process - 1st prototype

⇒ Feedback

- Design refinement and layout improvement needed
- Google Trends date range needed to be corrected and aligned with the Met Gala timeline
- Additional images and outfit feature descriptions needed to be inserted

2. Website Development Process - 2nd prototype

⇒ Feedback

- Further position the project as an informational website
- Increase user interactivity by adding slider-based functions and interactive UI elements
- Improve the layout for better readability and user convenience
- Translate website content into English
- Resolve image upload issues within the website, Add responsive image resizing features to automatically fit different image ratios and dimensions

2. Development Process Final Version (3rd Prototype)

Analysis

ICON AURA
Validation of 'human 00'
effectiveness

00. introduction

- Main landing page with a storytelling-based layout
- Explains the significance of the Met Gala and how BLACKPINK members represent the identity of different luxury brands
- Introduces the purpose of the website by highlighting the relationship between fashion, branding, and digital influence

3. Final Website - Key Features

01. influence by member

- Compare the influence of BLACKPINK members through their Met Gala-related Instagram posts
- Users can selectively check or uncheck members to compare engagement metrics between members
- Metrics such as likes, comments, and shares can also be toggled on or off for customized analysis

-> The analysis suggests that Jisoo showed the strongest influence, possibly due to it being her first Met Gala appearance combined with the strong public attention toward Dior's highly dedicated dress styling for the event

3. Final Website - Key Features

02. Look Archive

- Analyze **each BLACKPINK member's Met Gala outfit** by brand and design style
 - Each image includes a customized explanation highlighting the specific fashion features shown in the photo
 - Feature descriptions change depending on the selected image
- Each member's archive contains three images organized in the following order:
: **overall styling → dress details → makeup/accessory details**

3. Final Website – Key Features

02. Look Archive

- Users can select comparison topics designed to help generate marketing and styling insights
- Fashion MDs can directly write notes and strategic ideas in the memo section below
- By clicking the "Download Instantly" button, users can immediately save and export their memo files for practical use and future reference

3. Final Website - Key Features

03. Brand Benefit

1) Track brand search volume trends around the 2026 Met Gala period

- Time-series graphs are based on Google Trends search interest data
- Global search interest for all four luxury brands sharply increased during the Met Gala week, with search indices approaching the peak value of 100
- Users can use the **slider function** to focus on specific time periods and also compare trend patterns by selecting the four brand buttons

03. BRAND PERFORMANCE STATISTICS

Validation members' performance for luxury brand benefits

• [Google Trends Results] Simultaneous One-Month Increase in Global Search Interest for Four Major Luxury Houses Following the Met Gala (May 4)

Change in Global Search Interest for Four Major Luxury Houses Following

Users can freely explore different time periods using mouse-based slider controls

3. Final Website - Key Features

03. Brand Benefit

2) Member Influence on Official Brand Instagram Accounts

- Compare Instagram engagement levels(the number of likes) across different brands, BLACKPINK members, featured celebrities, and main-feed appearances on official luxury brand Instagram accounts
- The analysis demonstrates that BLACKPINK members generated significantly higher engagement and brand influence compared to many other celebrities
- Users can view **post previews** and corresponding **like counts** directly within the website
- Each post is **connected to the original Instagram** upload through clickable buttons for direct access to the actual posts

3. Final Website - Key Features

*Wearisma Partnership Analysis Articles Distribution Index

1st. Saint Laurent (\$186.4M)

"Saint Laurent is the undisputed champion of the Met Gala 2026, earning an EMV of **\$186.4 million** – the highest of any brand tracked this year."

2nd. Dior (\$162.7M)

"Dior comes in at second place with an EMV of **\$162.7 million** and **226.1 million engagements** – results built on some of the most high-profile individual appearances of the night. **Jisoo** from BLACKPINK followed with **\$4.0M**, making the K-pop constellation around Dior impossible to ignore."

3rd. Loewe (\$150.2M)

"Loewe captured third place performance metric tracking via institutional data stream."

4th. Chanel (\$144.5M)

"Chanel secured fourth place with **\$144.5 million** in EMV, exceptional numbers that would have secured a top two finish. Chanel achieved the highest average engagement rate (**12.66%**). **Jennie** from BLACKPINK led the conversation, ahead of Nicole Kidman, A\$AP Rocky, and Anna Wintour."

03. Brand Benefit

3) EMV Rankings of Brands During the Met Gala

- Includes a section featuring **real articles** discussing how BLACKPINK members significantly **contributed to brand** visibility and media value
- Three of the top four ranked brands were represented by BLACKPINK members, highlighting their strong influence on luxury brand performance during the event

3. Final Website - Key Features

LISA MEDIA FOCUS: BEYOND BRAND

Host Committee

As can be seen from the data analysis, Lisa is not included in the brand's general marketing comparison (Louis Vuitton) feed report, but has officially become the **'2026 Met Gala Host Commitment Member'** after simply being invited to the stage of celebrity. The official article below shows that she has moved beyond certain brand dependencies and served as an independent power brand.

REFERENCE OF GLOBAL VOGUE AND OFFICIAL MEDIA LINK

 Vogue: Lisa Looks Angelic in Custom Robert Wun at the 2026 Met Gala

 Sports Donga: Met Gala Host Commitment Lisa Behind Traditional Dance 3D Scan

03. Brand Benefit

4) Lisa as a Met Gala Host Committee Member

- Lisa's participation as a Host Committee member, not as a direct representative of Saint Laurent, itself demonstrates a level of influence that extends beyond the role of a luxury brand ambassador
 - While the exact marketing benefits provided to Saint Laurent cannot be quantitatively measured, her visibility and symbolic presence at the event likely generated significant indirect brand value and media attention
- Users can **access related articles** through the two linked sources below for further reference

3. Final Website – Key Features

04. KEY TAKEAWAYS

Conclusions and marketing implications

The appointment of BLACKPINK members as luxury house's top global senior ambassador and solid partnership were very sophisticated quantitative data indicators. This is due to the fact that they can return the digital imprinting effect of brand equity to an astronomical EMV scale with just one post at the global mega event's starting point.

When deploying Bying/Production resources in the next quarter from a fashion MD perspective, the most overwhelming branding benefit will be the focus of marketing capital on **'artist branding storytelling'** such as **Chanel Atelier-level fair investment (time administration), a strategy to link Yves Saint Laurent jewellery reinterpreted Louvre motifs, Dior combined with the beauty line to create a viral effector**, or **Lisa's traditional Thai dance homage 3D design**.

04. Conclusion

- Provides **key implications and strategic insights to help fashion MDs** derive practical ideas from the analyzed cases
- Serves as the final objective of the website by connecting fashion analysis, digital marketing data, and brand strategy into an accessible insight-driven platform

4. What you learned

1. Understanding Fashion Industry Structure

- Learned that the fashion industry operates not only through design and styling, but also through digital data and global fandom influence
- Understood the **strong connection between fashion, digital marketing, and brand strategy** through the analysis of BLACKPINK and luxury brands
- Analyzed search trends, EMV, and SNS engagement as **indicators of brand value and marketing impact**

2. Data Collection & Analysis Experience

- **Manually collected and organized** real SNS and brand account data
- Learned that meaningful analysis depends not only on AI tools, but also on the **ability to select, interpret, and structure data effectively**
- Realized that standardizing and comparing data required significant time and effort

3. Website Development & AI Utilization

- Gained experience transforming ideas and research **into an actual functional website** prototype
- Directly designed the website structure, edited content, and refined the final implementation by **utilizing AI tools as a means of implementation** throughout the website production process
